

Today's Program  
NOVEMBER 13, 2006

## REMEMBRANCE DAY SERVICE

Speaker: Michael Beale

### LAST WEEK'S PROGRAMME

Norm Wheeler spoke about the history of the Rotary Home for Children and Youth, at Maryvale, which is a Children's Mental Health Centre. It was an extremely informative presentation.

Nancy Gignac, Chair of the Board for Maryvale, then gave a power point presentation about Maryvale and the Rotary Home. She fully explained the services provided and the number of children using these services. These children are very underserved, not only here but all across the province. The present facility is overcrowded and a new building is needed. Nancy said that they have 3 of the 300 child psychiatrists in all of Canada.

### UPCOMING SPEAKERS

Monday, November 20, 2006  
"Smart Community Innovation"  
Speaker: Kristina L. Verner, B.A., B.Ed.

Monday, November 27, 2006

## CLUB PROJECT

We have designed and are printing greeting cards for friends and clients for the Holidays. The message is "**Peace on Earth**" and the design comes from several local children. The Rotary wheel is on the back of the card. Proceeds are to help Windsor (1918) support Rotary's Children's Safety Village.

October was Vocational Service Month and I would like to thank those Rotarians who stepped up and told us about their vocations. Unfortunately, I was away and missed Gordon Drake's talk which is a shame because I had some questions for him. Bill's top 5 list of questions are:

- 5) How can physicists be so sure about the Heisenberg Uncertainty Principle?
- 4) Does String Theory have him tied up in knots?
- 3) Why does one of the most exciting physicists of the 20th century have the last name Bohr?
- 2) Did the Humane Society ever charge Schrodinger for his treatment of his cat?
- 1) What famous physicist reportedly said, "I'm no Einstein."

From Bill MacArthur (of course)

## SAFETY HERO AWARDS
