Service Above Self

The 4-Way Test

Of the things we think, say or do

1. Is it the truth?
2. Is it fair for all concerned?
3. Will it build goodwill and better friendships?
4. Will it be beneficial to all concerned?

LAST WEEK'S ANNOUNCEMENTS

1. Janet Kelly reminded everyone about the End Polio Gala and asked people to please attend. Janet then introduced two of the GSE group who will be going to Ghana.
2. Maureen Lucas had the Easter Baskets available and asked everyone to please take one, or two, and fill them, for the children at Children First.
3. Rick Caron announced that a Treasurer is needed for the Club for 2009-2010 and March 15 is the deadline. He will be recruiting some-one if no-one steps forward.
4. Alex Kais, President of the Rotaract Club, asked us to please attend Battle of the Brains on March 26 at Place Concorde. Tickets are \$25 each.
5. Shari Cunningham informed everyone that Matt Dunlop who was Chair of Marketing for AIP has resigned. She and Phil Cohen are stepping in for now, but Shari is looking for two people to assist with the overall messaging of AIP and setting up contacts for advertising with the newspaper, media, TV and Internet. Renee Pare will be doing the webpage. Sandra Francis who was Chair of Purchasing has also resigned and someone is needed for purchasing tents, tables, chairs, along with handling Security, etc. The job is 60% done already. Cam Franzoi who was Chair of the Volunteers suffered injuries to his hand while handling a saw. Mike Drake and Bill McRae, both of whom have been Chair of the Volunteers in the past, have stepped in.

LAST WEEK'S PROGRAM

There was a 'Youth Exchange Minute' where Miley and Pepe both updated everyone on what they had been doing.

Avri Kadman, Director of Water and River Rehabilitation. Jewish National Fund, spoke about the problems with water in Israel and how they are handling it. There is not much fresh water in Israel and not much is added in rain. They are desalinating the sea water and making inroads with that and will double production by 2013. They are planting trees and making lakes, along with treating waste water to use in agriculture and building reservoirs to hold it. With this two-fold attack, they will produce enough water by 2020.
